

WITH DD15

Support You Can Count On

Our extensive national service and support network is well established and speaks for itself. With backing you can count on, our factory-trained technicians will give you and your business the right assistance and advice, when you need it.

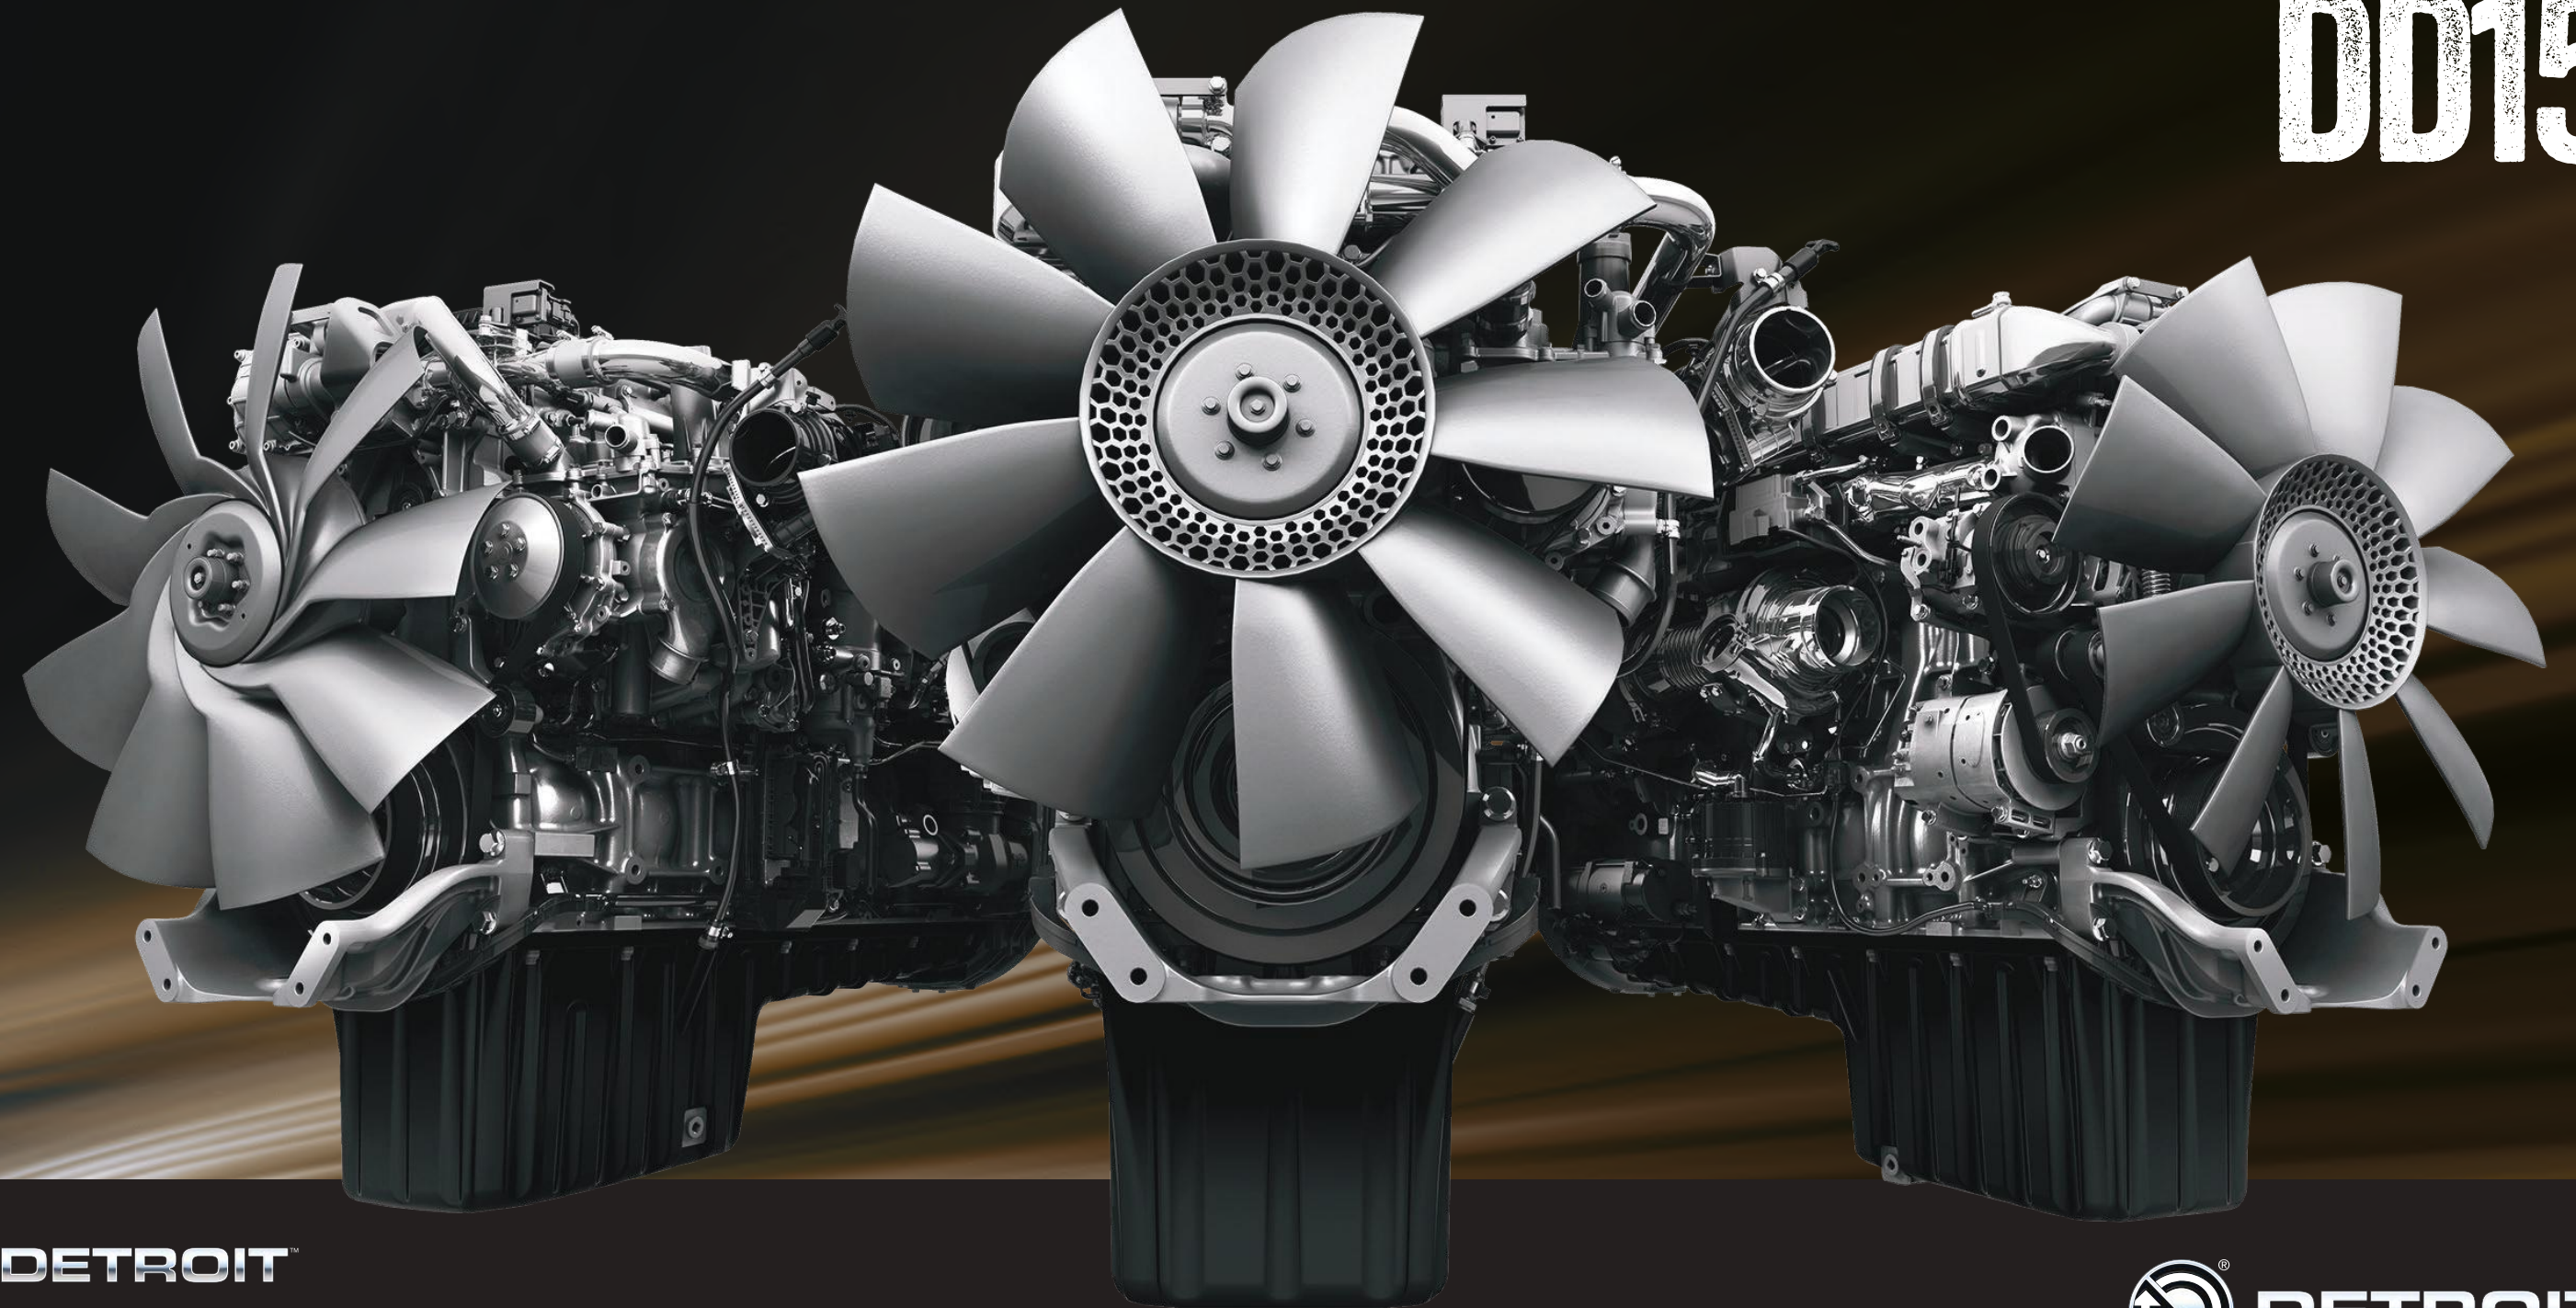

Overhaul Costs

When it comes to restoring power, efficiency and reliability, Detroit offers a tailored overhaul solution to suit various needs and budgets:

1. DD15 StepUP offers progressive fixed price programs that include genuine factory parts and labour, saving you time and money. With a 12-month warranty for additional peace of mind.
2. Use genuine Detroit or Reliablilt remanufactured parts to perform DD15 engine overhauls through your Penske Power Systems branch or approved Detroit dealer location.
3. For total peace of mind, purchase a brand new, out of the box, DD15 with a full two-year unlimited kilometre warranty.

RELIABILITY IS THE DIFFERENCE DD15

OPERATE IN THE BLACK

The Benchmark in Reliability

With a proven track record in the design and manufacture of heavy duty diesel engines, Detroit offers customers a superior level of reliability and performance. Our customers have come to rely on Detroit's heavy duty engine platform as the industry standard. And with over 500,000 DD15 engines in service worldwide, it is the standard to beat.

No Midlife Crisis

Benefiting from design and manufacturing processes developed by some of the world's best engineers, and using advanced materials, the DD15 pushes engine tune-up intervals out to 400,000 kilometres.

Whilst other manufacturers require you to undertake extensive component change-outs at the engine's midlife, costing up to \$16,000, the DD15 does not. This provides additional cost of ownership benefits and keeps your truck on the road longer.

Industry Best Warranty

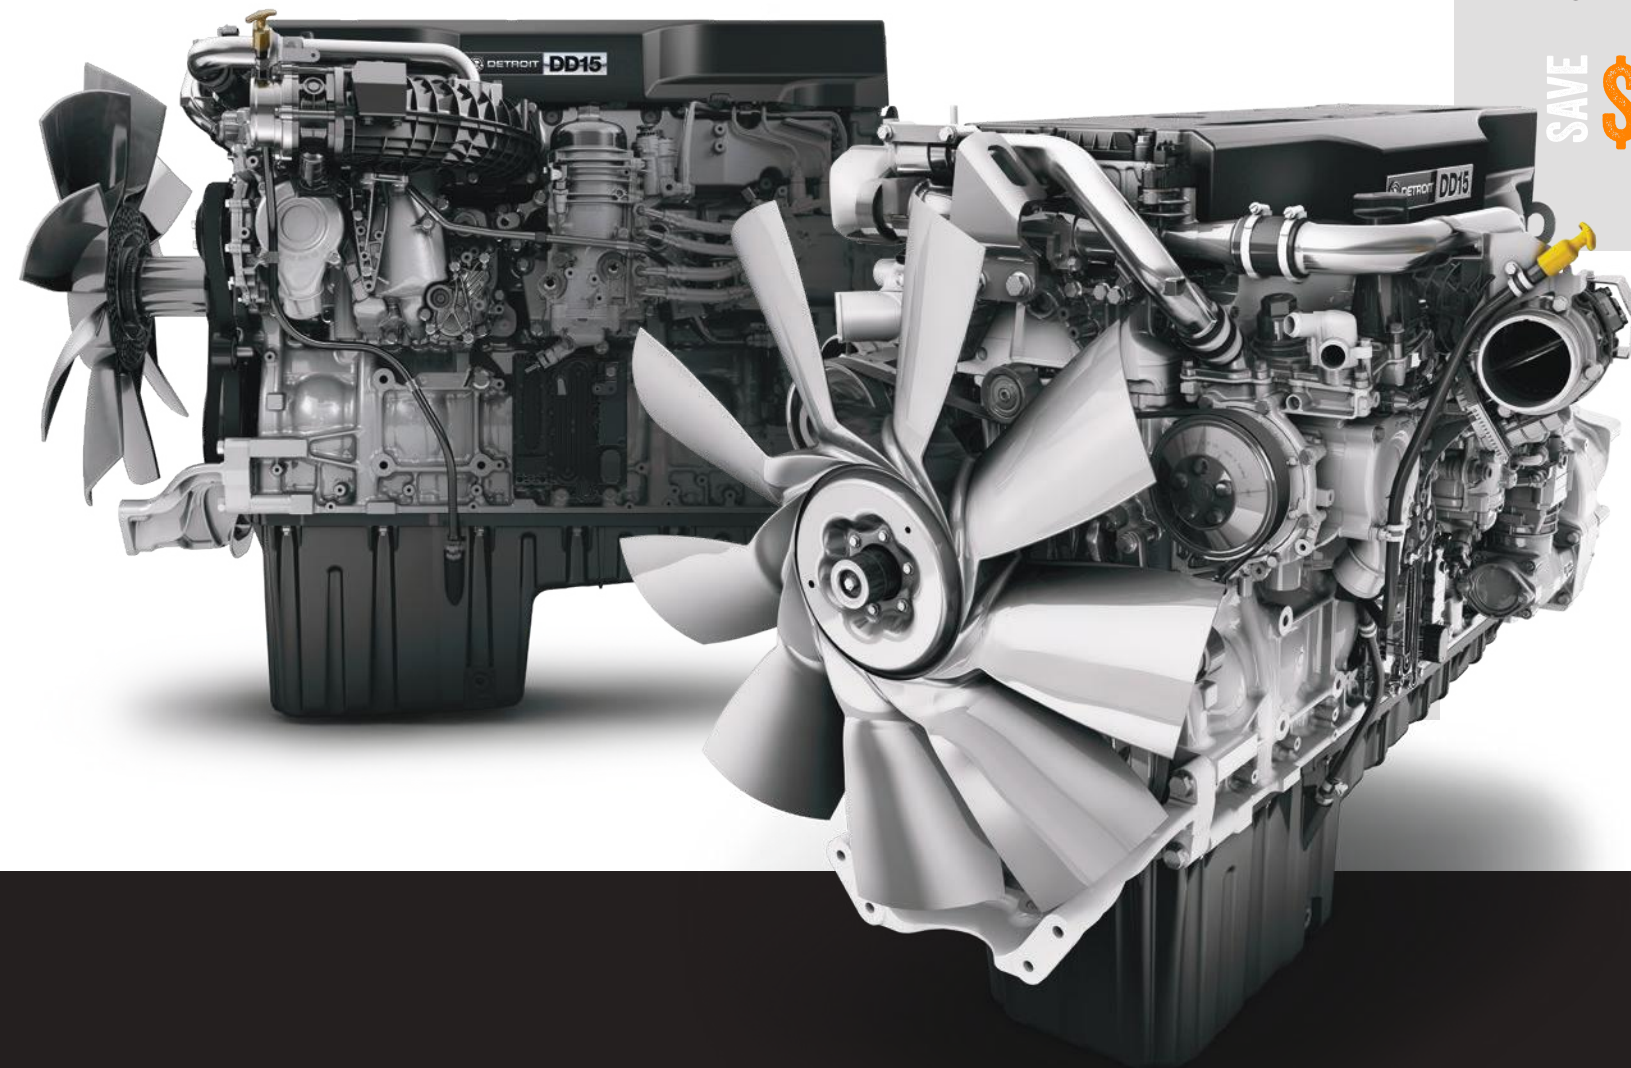

All DD15 engines are backed by the most comprehensive no-cost extended warranty package in the industry at five years, 1,000,000 kilometres, 15,000 hours or 500,000 litres of fuel burn (whichever occurs first).

Extended warranty from other engine manufacturers will cost operators up to \$6,000, with additional and extensive midlife change-outs of up to \$16,000, to maintain their coverage.

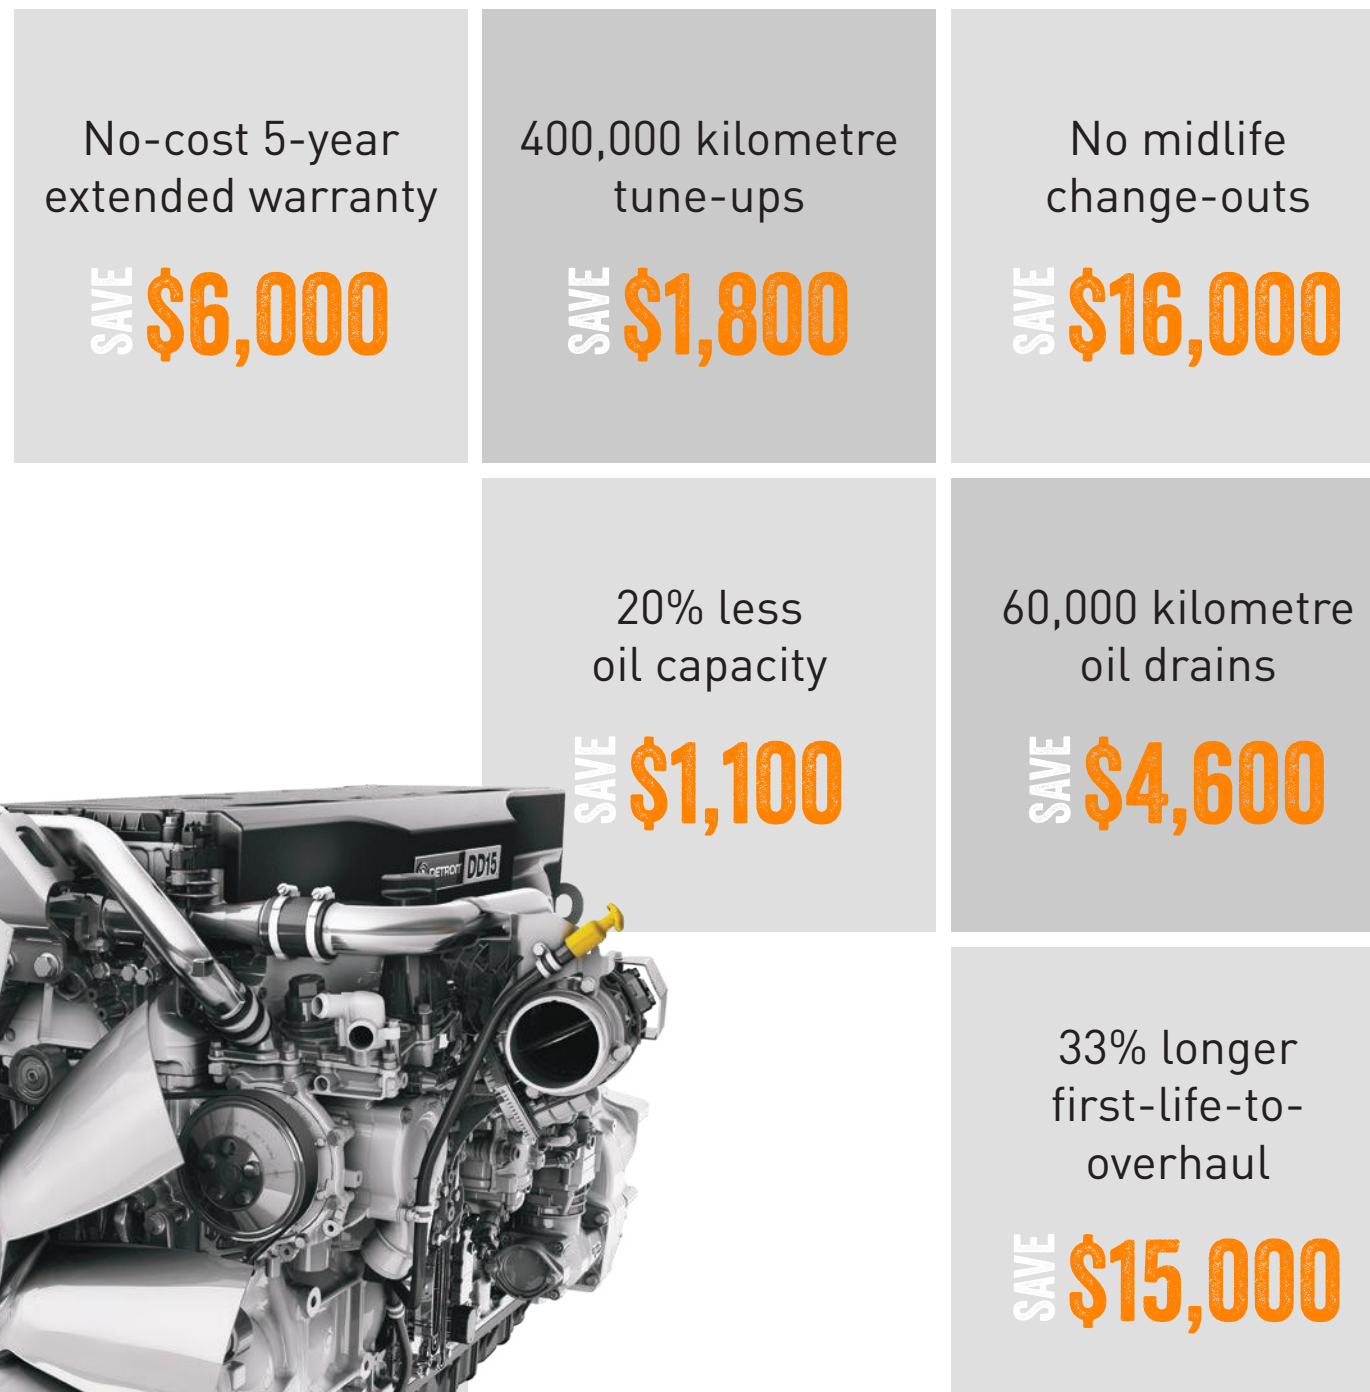

And with no midlife crisis, Detroit offers customers peace of mind.

Saving You Money

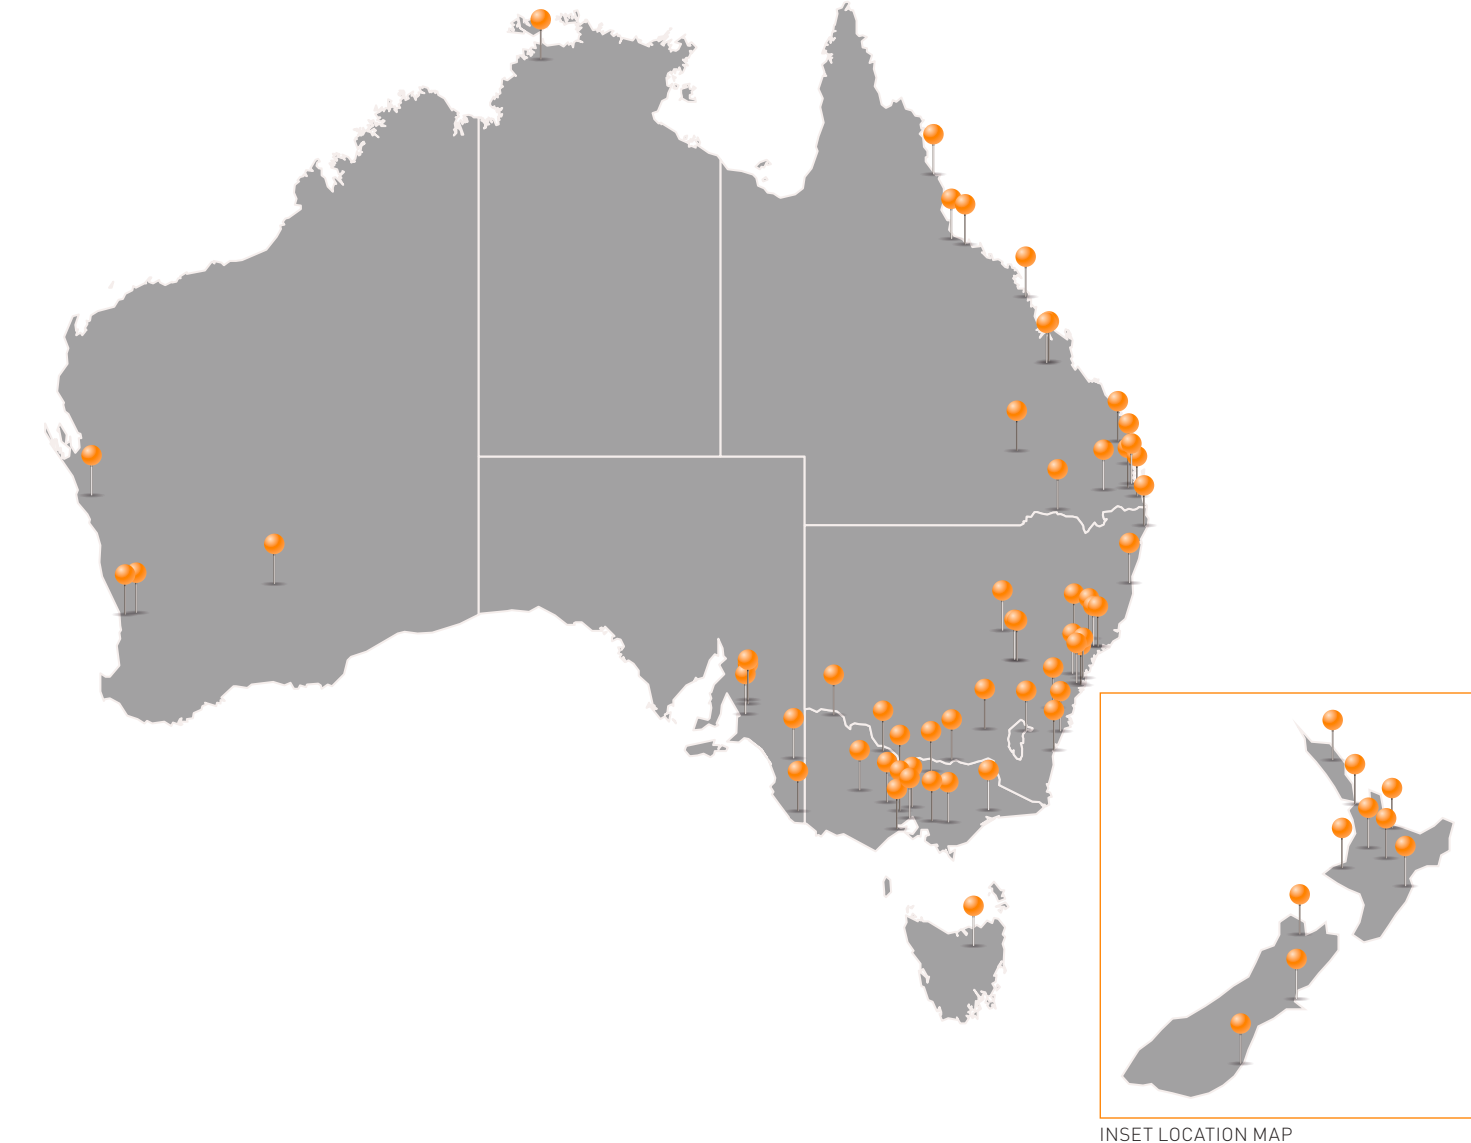

Detroit's reliability means you pay less. Fuel economy you can rely on together with no midlife crisis means a low total cost of ownership, saving you money and keeping your truck on the road, increasing your productivity and earning your business money.

DD15 COST OF OWNERSHIP SAVINGS

DETROIT SERVICE NETWORK NOW CLOSER THAN EVER

Through an extensive Australian and New Zealand network, your nearest authorised Detroit dealer is now closer than ever. Trained, tooled-up and ready to go, you can rest easy in the knowledge that you're getting superior Detroit genuine parts and service at your local authorised Detroit dealer.
